

Incident Reporting

The [British Canoeing online reporting system](#) is for **all** paddling incidents, whether you are a member of British Canoeing or not.

Incidents reported should also include near misses, as this information will help us to identify paddling issues and to establish an accurate picture of safety and other concerns across the country.

Please include incidents such as those with other water users, access issues, pollution/environment, canoeing safety etc as well as major incidents or accidents.

British Canoeing Insurance - Incident Notification

If the incident occurs in an activity that is covered by BC insurance it is important that you register the incident through this system as a record of the incident that took place at this time.

If an incident has occurred which resulted in:-

- An injury to a person
- Medical assistance being provided or an ambulance called
- A report under RIDDOR (major incidents in the workplace)
- Damage being caused to property, equipment, vehicles etc

Then the incident **must** also be reported to [British Canoeing Incident reporting system](#)

[Details of member insurance can be found here.](#)
